

2021 Data Report

Contents

Background Information	2
Population	2
Population by Race & Ethnicity by Year for the City of Geneva	3
Median Age	4
Median Household Income	5
Population Below Poverty Level by Race & Ethnicity	6
Family Poverty Rates By Community	6
Poverty Rates of Individuals By Community	7
Poverty Rates of Children (People Under 18) by Community	7
Place of Birth	8
Goal 1: Children are born healthy	9
Births by Location	9
Low Birth Weight	9
Neonatal and Infant Mortality Rates	10
Goal 2: Children have timely and appropriate preventative and primary health care	12
Weight Classification of Children in the Geneva City School District	12
Asthma, Hearing, and Vision	13
Goal 3: Families and caregivers have sufficient economic resources to meet their children's basic needs	14
Median Household Income	14
Temporary Assistance for Needy Families (TANF)	15
Households with Cash Public Assistance Income	16
SNAP (Food Stamps) Using Ontario County Data	17
SNAP (Food Stamps) Using U.S. Census Data	17
Families Below Poverty Level	18
Education and Poverty Level, City of Geneva	18
Health Insurance Coverage	19
Homeless Children in Geneva by Accommodation Type	20
Goal 4: Children have safe, stable, and nurturing environments in their homes, community, and schools	21
Household Structure / Parental Employment	21
Household Structure for Families with Children Under 6	22
Reports of Abuse	23
City of Geneva Police Department Juvenile Referrals	24
Domestic Violence Incidents	25

Goal 5: Families and caregivers possess and practice child-rearing skills that promote optimal child development	26
Teen Pregnancies	26
School Experience Prior to Kindergarten	27
Educational Attainment of New Parents in Geneva	28
Goal 6: Children with special needs receive timely and appropriate services	29
Early Intervention for Preschoolers in Geneva	29
Special Education Services for Geneva's Elementary School Students	29
Committee for Preschool Special Education Referrals	30
Goal 7: Children have the opportunity to attend quality early childhood and care programs	31
Licensed Child Care Capacity in Geneva: Overview	31
Licensed Child Care Capacity in Geneva: A Closer look	31
Snapshot: One Center's Recent History	32
Goal 8: Children attend quality schools and succeed	33
Students by Race and Ethnicity: Shift in a Generation	33
Changing Student Demographics in Two Generations	34
Geneva High School Graduation Rates	35
English Language Learners in the Geneva School District Preliminary	37
Economically Disadvantaged Students in the Geneva School District Preliminary	37
New York State Assessment, Grades 4 and 8 in the GCSD	38
Households without Computers or Internet Access	39
Goal 9: The community and schools respect and foster diversity	40
The Community Has Activities and Events for Families—Availability of Services for Parents	40
The Community Has Activities and Events that are Oriented Toward Families and Celebrate Cultural Diversity	41
Goal 10: Families exercise their voices and their votes in strengthening the Geneva community	42
May School Budget Voter Turnout in the Geneva City School District	42
May School Budget Voter Comparison of GCSD to NYS and FLX	43
Expanded Data Links	45
Many Thanks	47

Background Information

For a general demographic overview of the City of Geneva, see the [2019 American Community Survey 5-Year Estimates](https://data.census.gov/cedsci/profile?g=0600000US3606928640): <https://data.census.gov/cedsci/profile?g=0600000US3606928640>. For a bit more detail see [Census.gov QuickFacts: New York; Ontario County, New York; Geneva city, New York; United States](https://www.census.gov/quickfacts/fact/table/NY,ontariocountynewyork,genevacitynewyork,US/COM100219)}: <https://www.census.gov/quickfacts/fact/table/NY,ontariocountynewyork,genevacitynewyork,US/COM100219>

Population

Table 1: Population Data by Location and Year

Year	City of Geneva	Ontario	NYS
2000	13,617	100,224	18,976,457
2010	13,326	106,298	19,229,752
2015	13,157	109,192	19,673,174
2019	12,787	109,511	19,453,561

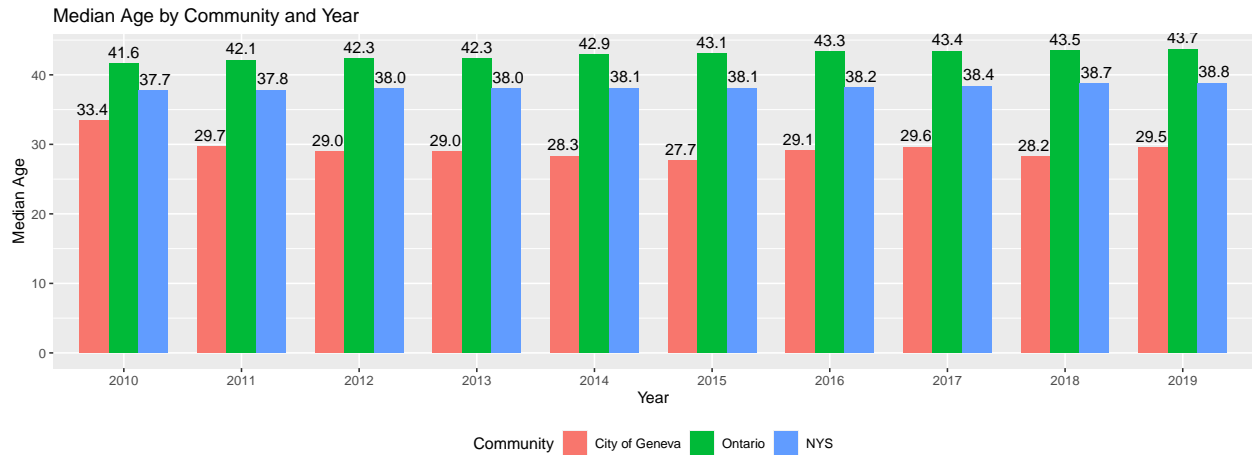

- Despite a common perception that migrant workers and other immigrant communities are increasing the population of Geneva, it is the only region examined that experienced a decrease in population from 2000 to 2019 and from 2010 to 2019.
- Sources: [ACS Demographic Characteristics for Geneva, 2019](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu or at [Success for Geneva's Children 2019 Data Report](#).

Population by Race & Ethnicity by Year for the City of Geneva

- Categories with less than 1% are shown but not labeled.
- In less than a decade the population of Geneva has become significantly more diverse with an increase in the Hispanic-Latino population and a drop in the white population.
- The City of Geneva is significantly more diverse than Ontario county, but less diverse than New York as a whole. See Goal 6 for data on the diversity of Geneva’s public school students
- Sources: [ACS Demographic Characteristics for Geneva, 2019](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu or at data and [Success for Geneva’s Children 2019 Data Report](#).

Median Age

- Geneva's population is significantly younger than that of Ontario County or New York State.
- This may be partially attributable to
 1. the influx of young families with school children in the city,
 2. the lack of a sufficient housing options for senior citizens,
 3. and the ability of some senior citizens to change their state of residence to Florida and other low tax states.
- Sources: [ACS Demographic Characteristics for Geneva, 2019](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu or at data and [Success for Geneva's Children 2019 Data Report](#).

Median Household Income

- Geneva (city) median household income is less than two-thirds that of Ontario County or New York State.
- Because income tends to rise with age (until retirement), the lower median income in Geneva is explained in part by the earlier observation that the median age is lower in Geneva than in Ontario County or New York State.
- Sources: [ACS Economic Characteristics for Geneva, 2019](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu or at [Success for Geneva's Children 2019 Data Report](#).

Population Below Poverty Level by Race & Ethnicity

Table 2: Percent of Population Below Poverty Level by Race and Location, 2012

Race	Geneva	Ontario	NYS	US
American Indian alone	50.0	25.6	25.7	27.8
Asian alone	57.9	11.6	17.3	12.1
Black or African American alone	50.5	40.7	22.6	26.5
Hispanic or Latino alone	44.4	26.4	25.3	24.1
Some other race alone	58.0	41.2	28.4	26.1
Two or more races	49.7	24.2	21.8	19.4
White alone	20.0	8.4	10.9	12.1
White, Not Hispanic or Latino	19.7	8.2	9.5	10.3

Table 3: Percent of Population Below Poverty Level by Race and Location, 2019

Race	Geneva	Ontario	NYS	US
American Indian alone	0.0	26.4	23.2	24.9
Asian alone	37.6	9.8	15.0	10.9
Black or African American alone	31.8	26.4	21.1	23.0
Hispanic or Latino alone	27.1	23.2	22.2	19.6
Some other race alone	34.1	33.5	25.1	21.0
Two or more races	47.7	20.1	18.9	16.7
White alone	12.9	7.6	10.4	11.1
White, Not Hispanic or Latino	11.8	7.3	9.3	9.6

Family Poverty Rates By Community

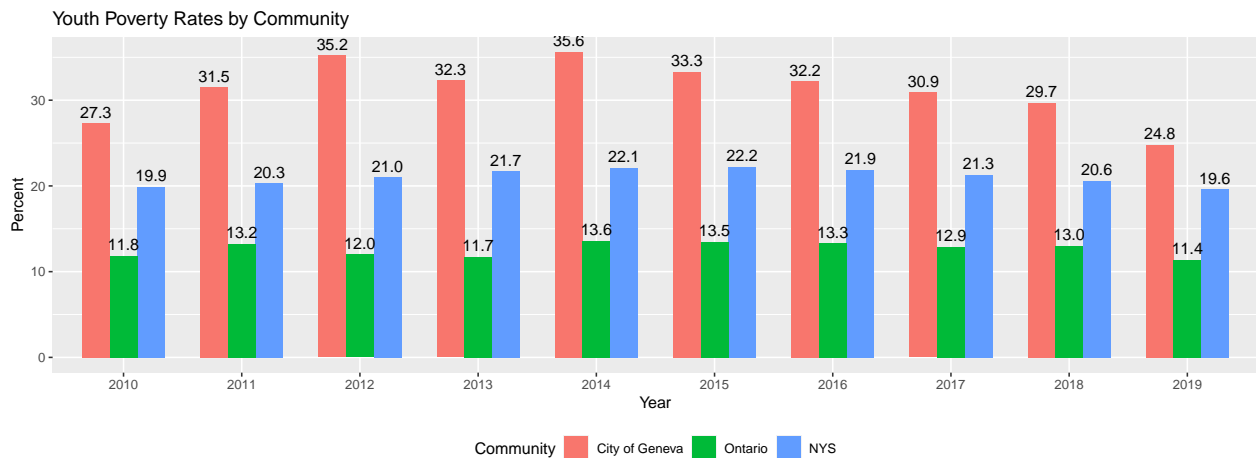

- Sources: [ACS Poverty Status in the Last 12 Months, Table ID: S1701](#) and [ACS Selected Economic Characteristics, 2019](#). Note: Data for earlier years may be obtained at these same links using the drop-down Product menu or at [Success for Geneva's Children 2019 Data Report](#).

Poverty Rates of Individuals By Community

- The poverty rate in Geneva is higher than New York state as a whole and more than twice that of Ontario county.
- Source: [ACS Poverty Status in the Past 12 Months, TableID: S1701](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu or at [Success for Geneva's Children 2019 Data Report](#).

Poverty Rates of Children (People Under 18) by Community

- The poverty rate among people under 18 years of age in the City of Geneva has remained 2.5 times than that of Ontario County and 50% higher than that of New York State.
- Source: [ACS Poverty Status in the Past 12 Months, TableID: S1701](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu or at [Success for Geneva's Children 2019 Data Report](#).

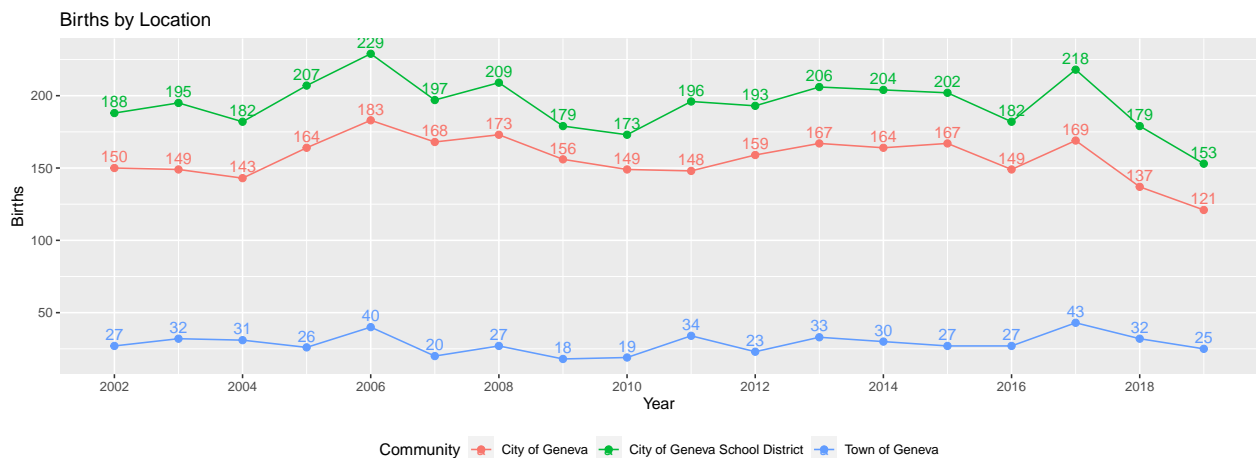

Place of Birth

- The richness of the Geneva community stems in part from the diverse origins of its members.
- Source: [ACS Economic Characteristics for Geneva, 2019](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu.

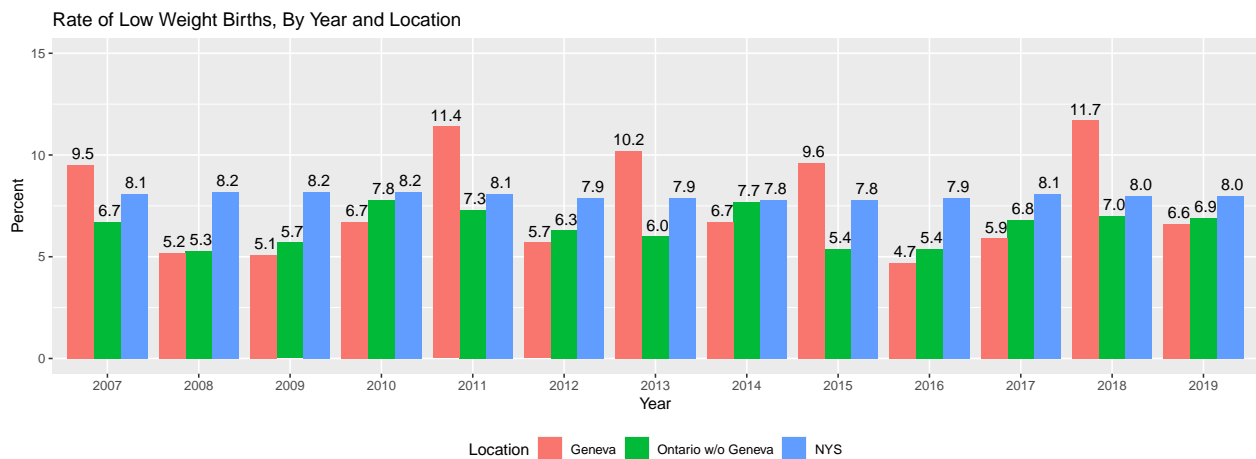

Goal 1: Children are born healthy

Births by Location

- Sources: [NYS DOH: Table 54: Total Live Births by School District Area, New York State and NYS DOH: Table 55: Live Births Minor Civil Division, 2007–2019](#)

Low Birth Weight

- Low Birthweight babies are defined as those weighing less than 2500 grams (approximately 5.5 pounds).
- Sources for 2019 data (Use corresponding tables for other years.):
 - [Table 53: City and Village Profiles - Selected Statistics for Cities and Villages over 10,000 Population, New York State 2019](#) (see both upper and lower halves of this table),
 - [Table 11: Low Birthweight Live Births by Mother’s Age and Resident County New York State - 2019](#),
 - [Table 7: Live Births by Mother’s Age and Resident County, New York State 2019](#).

Neonatal and Infant Mortality Rates

- The **infant mortality rate** is the number of deaths under 1 year of age per 1,000 live births.
- The **neonatal mortality rate** is the number of deaths under 28 days of age per 1,000 live births. These deaths are included in the infant mortality rate.

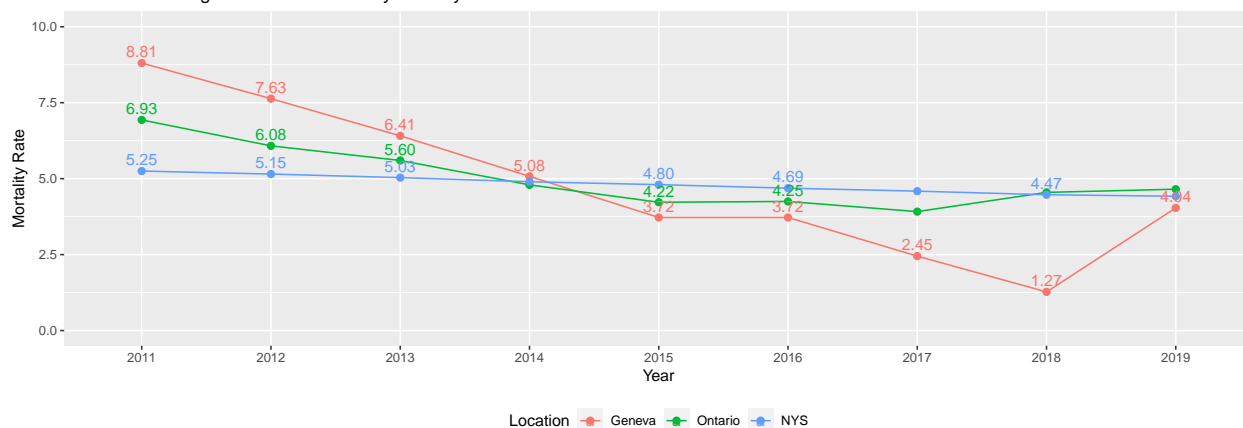

Neonatal and Infant Mortality Rate, By Year and Location

- Note: In the period listed, there has never been more than two infant deaths in a year in Geneva.
- **Caution:** Since there are roughly 150 births in Geneva per year, a change of 1 death changes the rate by more than 6%. For this reason, it makes sense to compare average infant mortality rates over longer time intervals. See the graph below.

Because of the small number of births per year in Geneva, one or two infant deaths in a single year skew the infant mortality rate. For this reason it makes sense to look at the infant mortality rate over longer periods.

Five-Year Rolling Mean Infant Mortality Rate by Location

- The graph above uses five-year time periods. For example, 2019 now represents the five-year time period 2015–2019.
- With this perspective, the infant mortality rate in Geneva is seen to be at or below the county and

state rates since 2014.

- Sources for all data in this section:
 - For 2019 state and county data use [Table 45: Infant Deaths, Neonatal Deaths, Post Neonatal Deaths and Perinatal Mortality by Resident County, New York State, 2019](#). Use corresponding tables for other years.
 - For Geneva use [Table 53: City and Village Profiles - Selected Statistics for Cities and Villages over 10,000 Population, New York State 2019](#) (see both upper and lower halves of this table).
 - [Table 9: Live Births by Race/Ethnicity and Resident County, New York State 2019](#).

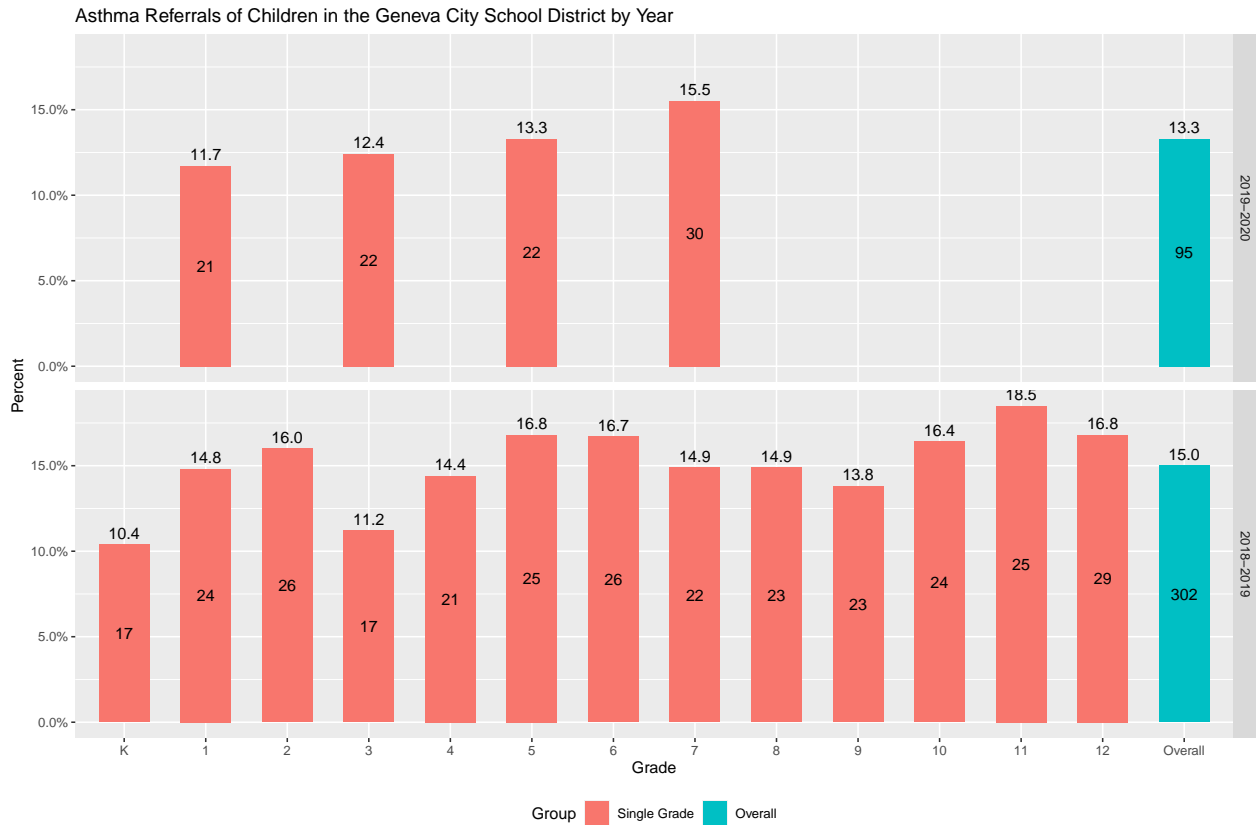

Goal 2: Children have timely and appropriate preventative and primary health care

Weight Classification of Children in the Geneva City School District

- Meaningful data for the 2020–2021 school year is unavailable due to the COVID-19 pandemic.
- The center for Disease Control (CDC) classifies weight status according to a BMI scale. Obese: \geq 95th percentile, overweight: between the 85th and 95th percentile, normal weight: between the 5th and 85th percentile and underweight: $<$ 5th percentile.
- Older students tend to be somewhat more overweight and more obese.
- Note: Percentages are based on the 93.6% of the school-aged children with recorded classifications in 2019–2020, 92.5% in 2018–2019, and 93.1% in 2014–2015.
- Source: Geneva City School District, Nursing Department.

Asthma, Hearing, and Vision

- Meaningful data for the 2020–2021 school year is unavailable due to the COVID-19 pandemic.
- The number of asthma diagnoses for each grade is listed within each bar.
- Asthma is a chronic lung disease that makes it harder to move air into and out of your lungs. Certain exposures to asthma triggers can cause asthma flare-ups. Asthma can be a life-threatening disease if not properly managed.

Asthma is the most common chronic condition among children, currently affecting an estimated 6.1 million children under 18 years, of which 3.5 million suffered from an asthma attack or episode in 2016. (American Lung association: <https://www.lung.org/lung-health-and-diseases/lung-disease-lookup/asthma/learn-about-asthma/asthma-children-facts-sheet.html>)

- In the 2015–2016 school year, a total of 204 or 13.3% of all students in elementary and middle school in Geneva were diagnosed with asthma. In 2018–2019 the rate was 15.0%.
- In 2020–2021 the vision and hearing screenings were waived by New York because of the COVID-19 pandemic.
- In 2018–2019, 28 students (4.6%) in grades 1, 3, 5, and 7 were given vision referrals.
- In 2018–2019, no students in grades 1, 3, 5, and 7 were given hearing referrals.
- Source: Geneva City School District, Nursing Department.

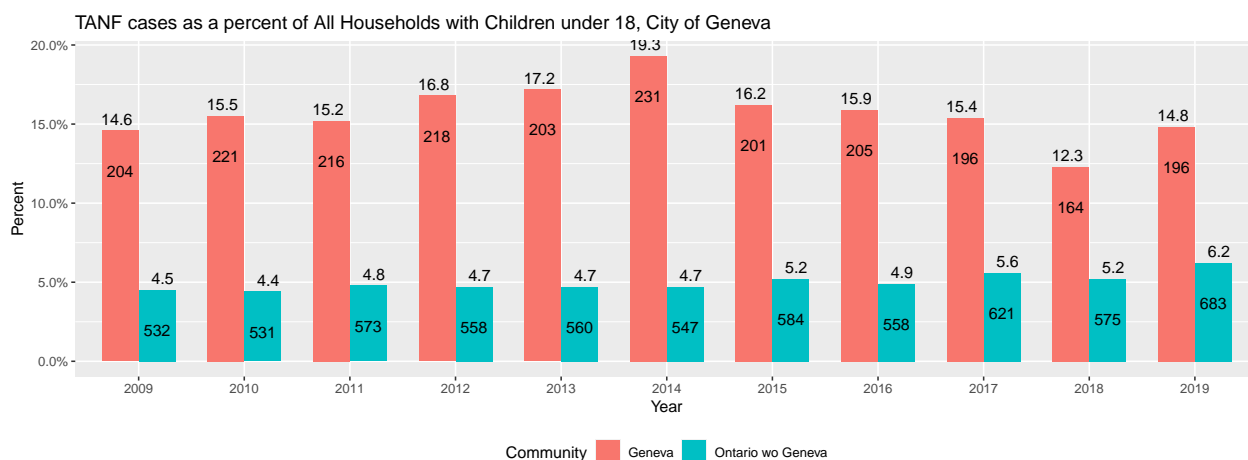

Goal 3: Families and caregivers have sufficient economic resources to meet their children’s basic needs

Median Household Income

- Geneva median household income is roughly two-thirds that of Ontario County or New York State.
- Because income tends to rise with age (until retirement), the lower median income in Geneva is explained in part by the earlier observation that the median age is lower in Geneva than in Ontario County or New York State.
- Sources: [ACS Economic Characteristics for Geneva, 2019](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu.

Temporary Assistance for Needy Families (TANF)

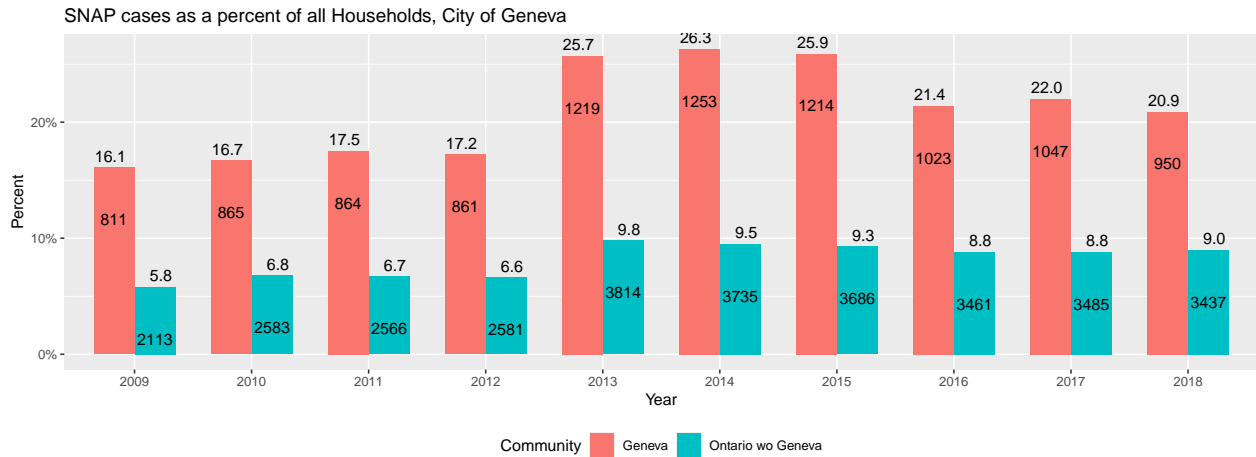

- TANF refers to Temporary Assistance for Needy Families, which provides financial assistance to economically disadvantaged households with children under the age of 18.
- The count of TANF households is shown within each bar. Note: Data for 2019 has been updated and corrected from the 2020 Data Book.
- Historically, the TANF use rate among Geneva households was consistently above three times that of the rest of Ontario County. In the last few years, that has dropped somewhat.
- Source: TANF data are from Ontario County Department of Social Services, Workforce Development and Youth Bureau Annual Reports, see <http://www.co.ontario.ny.us/118/Social-Services>
- Source: Data for households with children under 18 prior are from [ACS Selected Social Characteristics for Geneva, 2019](#). Note: Data for earlier years may be obtained at these same links using the drop-down Product menu.

Households with Cash Public Assistance Income

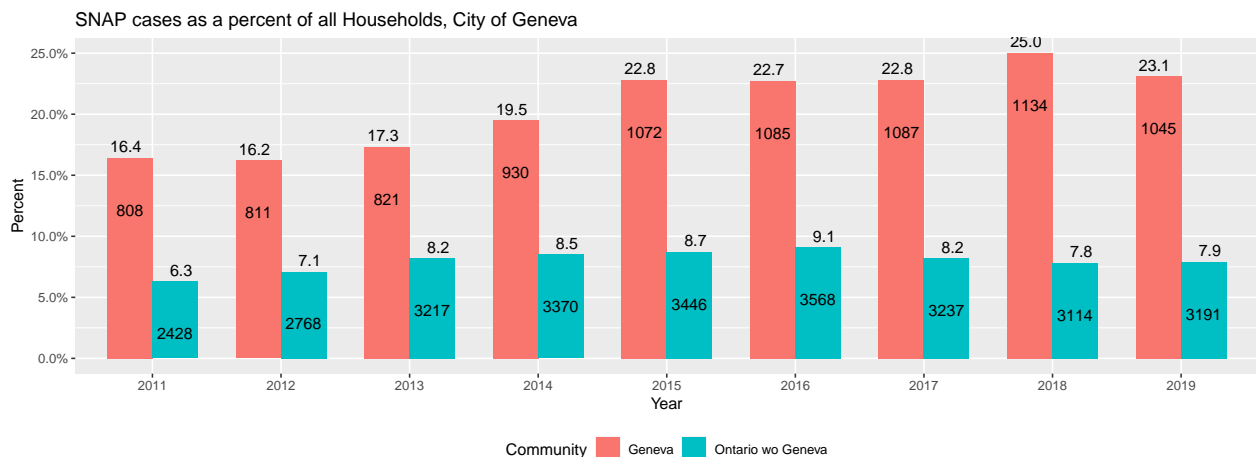

- Source: [ACS Selected Economic Data for Geneva, 2019](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu.

SNAP (Food Stamps) Using Ontario County Data

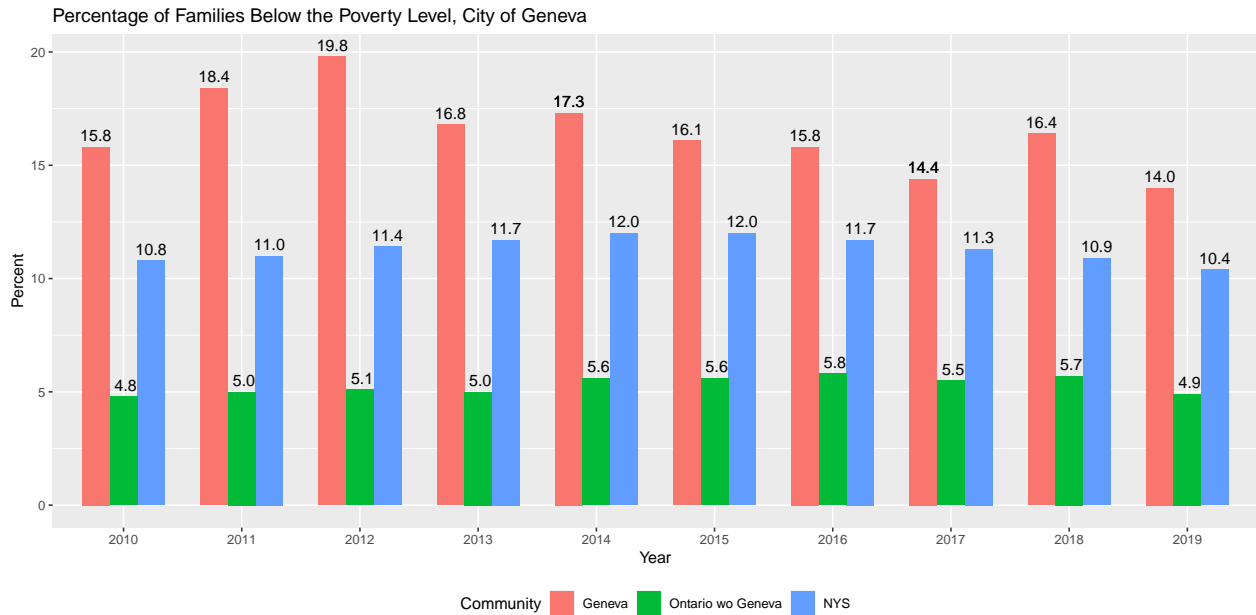

- SNAP (Supplemental Nutrition Assistance Program) is commonly known as Food Stamps. Unlike TANF, a household does not need to have persons under the age of 18 in order to be eligible to receive SNAP benefits.
- The count of SNAP households is shown within each bar. **Note:** Data for 2019 is not available.
- The SNAP use rate among Geneva households has typically been more than two-and-a-half times that of the rest of Ontario County.
- Source: SNAP data from Ontario County Department of Social Services, Workforce Development and Youth Bureau Annual Reports.
- Source: Household data come from [ACS Selected Social Characteristics for Geneva, 2019](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu.

SNAP (Food Stamps) Using U.S. Census Data

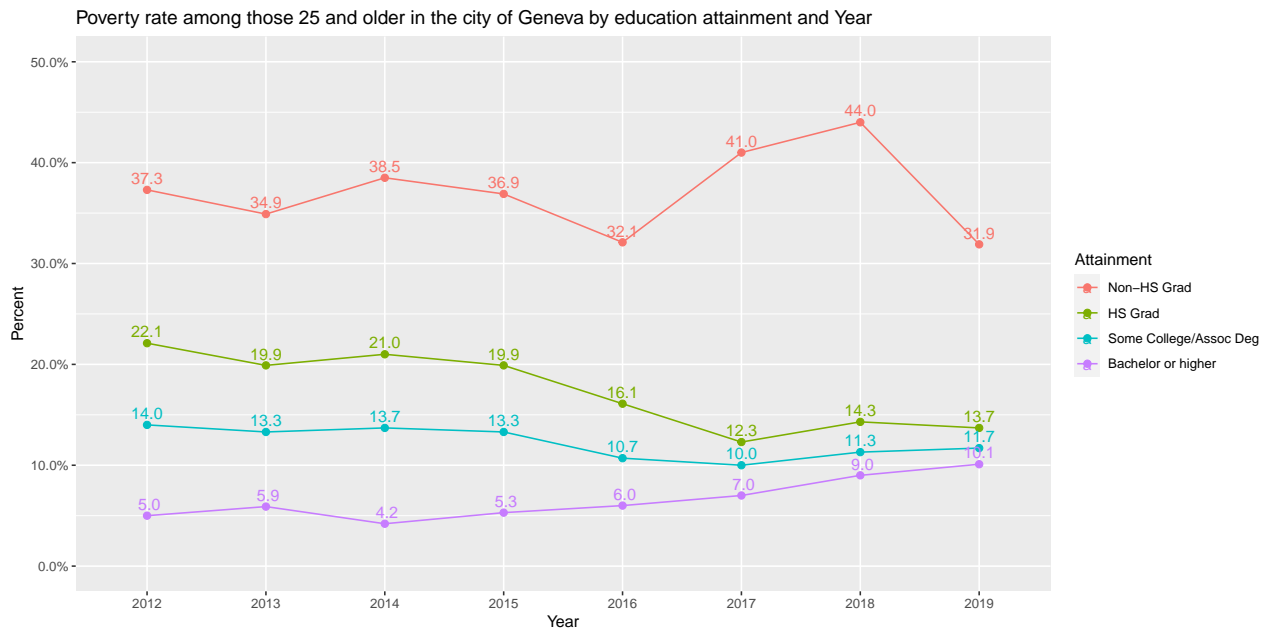

- Source: These Household and SNAP data are U.S. Census data and as such are estimates. The results are similar to, but not identical with the the preceding data supplied by Ontario County. Link: [ACS Selected Social Characteristics for Geneva, 2019](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu.

Families Below Poverty Level

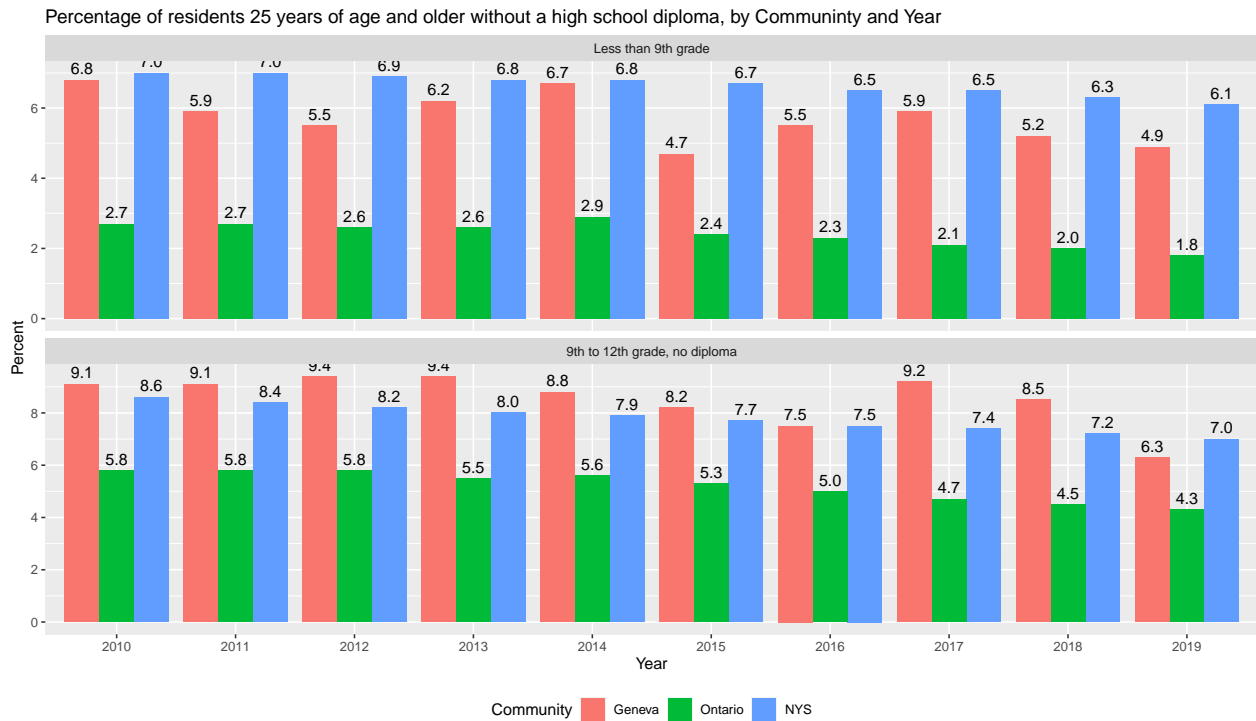

- Source: [ACS Selected Economic Characteristics for Geneva, 2019](#). Note: Data for earlier years may be obtained at these same links using the drop-down Product menu.

Education and Poverty Level, City of Geneva

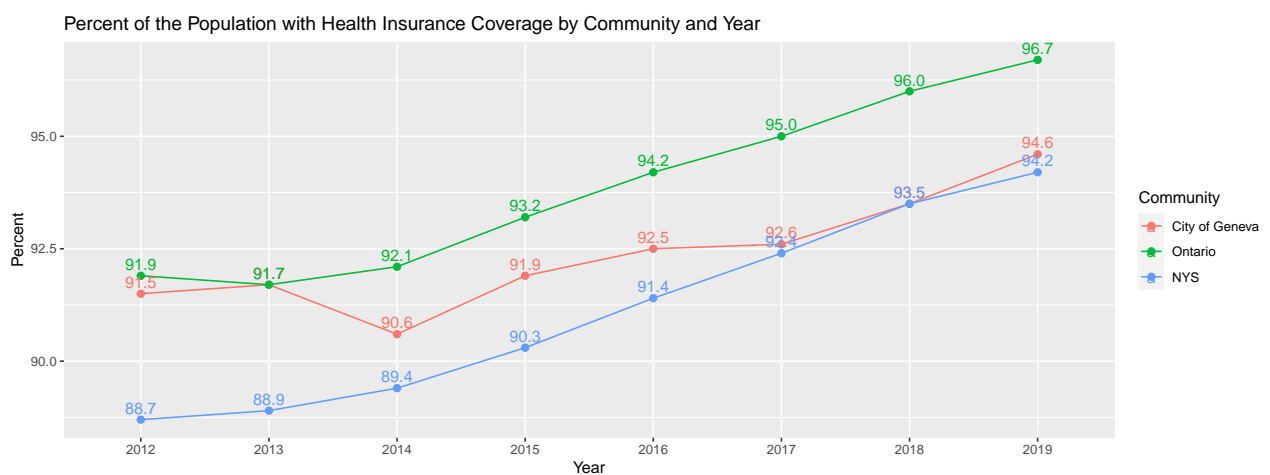

- A high school diploma is so important. The poverty rate is currently more than triple for those who do not graduate from high school.
- Source: Data for households with children under 18 are from [ACS Poverty Status in the Past 12 Months of Individuals by Sex by Educational Attainment for Geneva, 2019](#). Note: Data for earlier years may be obtained at these same links using the drop-down Product menu.

- The percentage of residents 25 years of age and older in Geneva without a high school diploma is higher than in Ontario county.
- Source: Data for households with children under 18 prior are from [ACS Selected Social Characteristics for Geneva, 2019](#). Note: Data for earlier years may be obtained at these same links using the drop-down Product menu.

Health Insurance Coverage

- The vast majority of Genevans have health insurance, though coverage rates are lower in Geneva than in Ontario County.
- Sources: [ACS Selected Economic Characteristics for Geneva, 2019](#). Note: Data for earlier years may be obtained at these same links using the drop-down Product.

Homeless Children in Geneva by Accommodation Type

- Data are collected by school year. Source for all data: Geneva City School District, Office of Central Registration.
- Accommodation types are based on the McKinney-Vento Homeless Assistance Act of 1987, which “was the first major federal legislative response to homelessness.” See <http://www.nationalhomeless.org/publications/facts/McKinney.pdf>
- Family Promise of Ontario County (FPOC) is a new group addressing homelessness. FPOC is a nonprofit 501c(3) organization which is a faith-based network helping families in Ontario County become sustainably independent. Its goal is keeping entire families together while they work toward having a home to call their own. (<https://www.familypromiseontariocounty.org/>)
- FPOC began operation in September 2018. During the first 6 months of 2019, seven families (9 adults, 16 children) were served for a total of 1,291 bed nights and 3,870 meals (Geneva portion: 389 bed nights and 1,167 meals) which was made possible by 5,985 volunteer hours.
- The following points are from the Homelessness/Poverty Fact Sheet at <https://familypromise.org/homelessness-fact-sheet/>
 - 2.5 million children will experience homelessness this year in America.
 - 1 in 30 children in the United States experience homelessness annually.
 - Nearly 1.3 million school children were homeless in school year 2014–15. Students experiencing homelessness are up to nine times more likely than their non-homeless peers to repeat a grade.
 - 51% of homeless children are under age 5 and, therefore, too young for school and are not counted.
 - 35% of all homeless persons nationwide are families with children.
- National Alliance to end Homelessness, New York Fact Sheet: <https://endhomelessness.org/wp-content/uploads/2019/08/Ny-fact-sheet-2019.pdf>

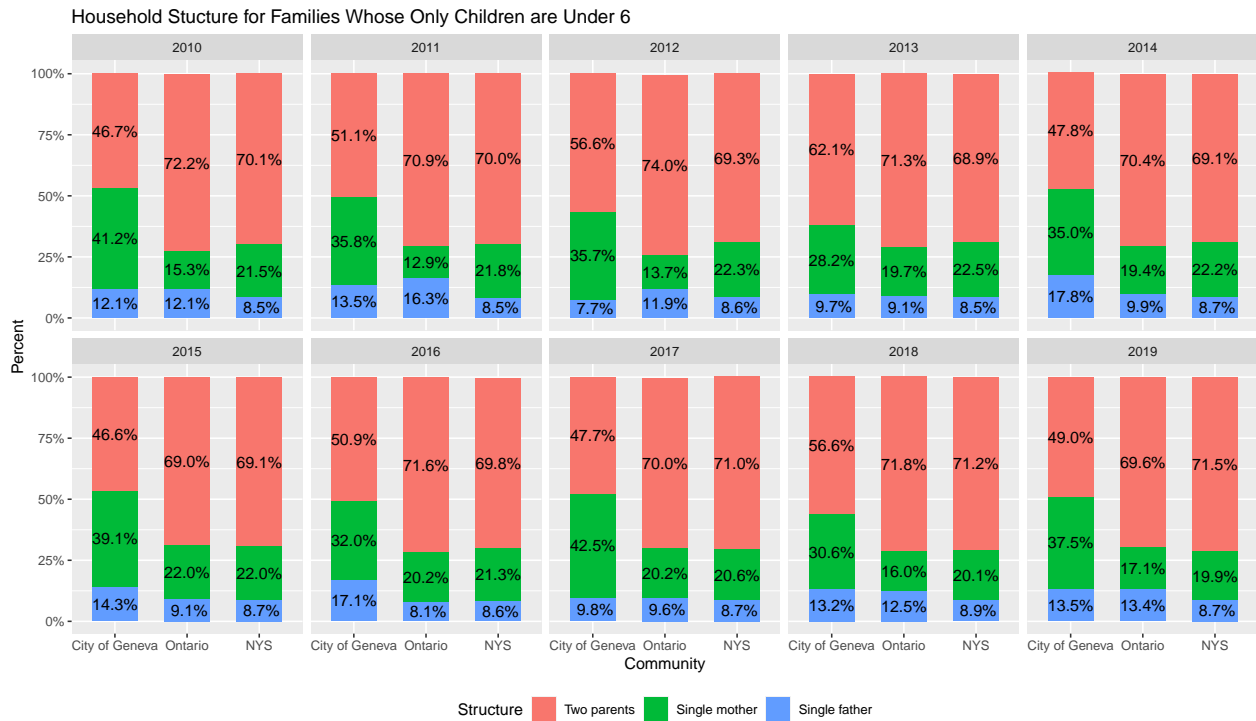

Goal 4: Children have safe, stable, and nurturing environments in their homes, community, and schools

Household Structure / Parental Employment

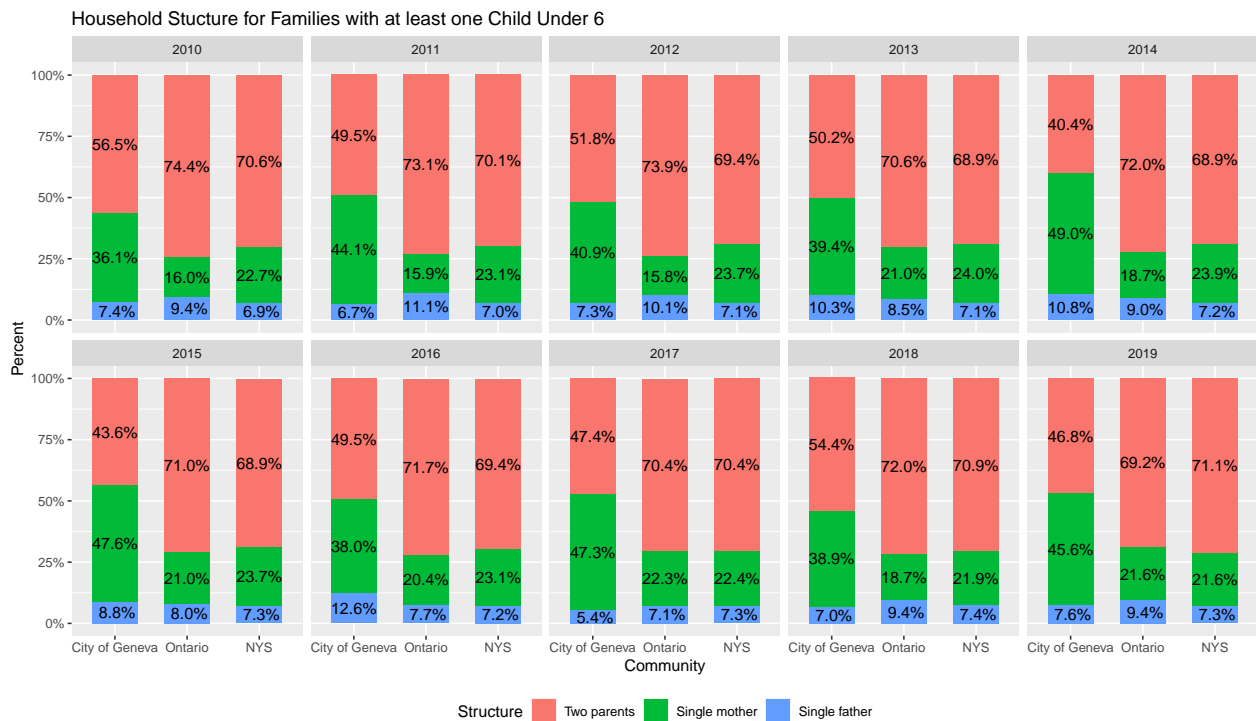

- Note: Categories of less than 0.5% are shown but not labeled in this bar plot.
- In each of the last three years, only half the of families with children under 18 in Geneva have both parents present compared to two-thirds in Ontario County as a whole.
- Source: [ACS Employment Characteristics of Families, 2019](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu.

Household Structure for Families with Children Under 6

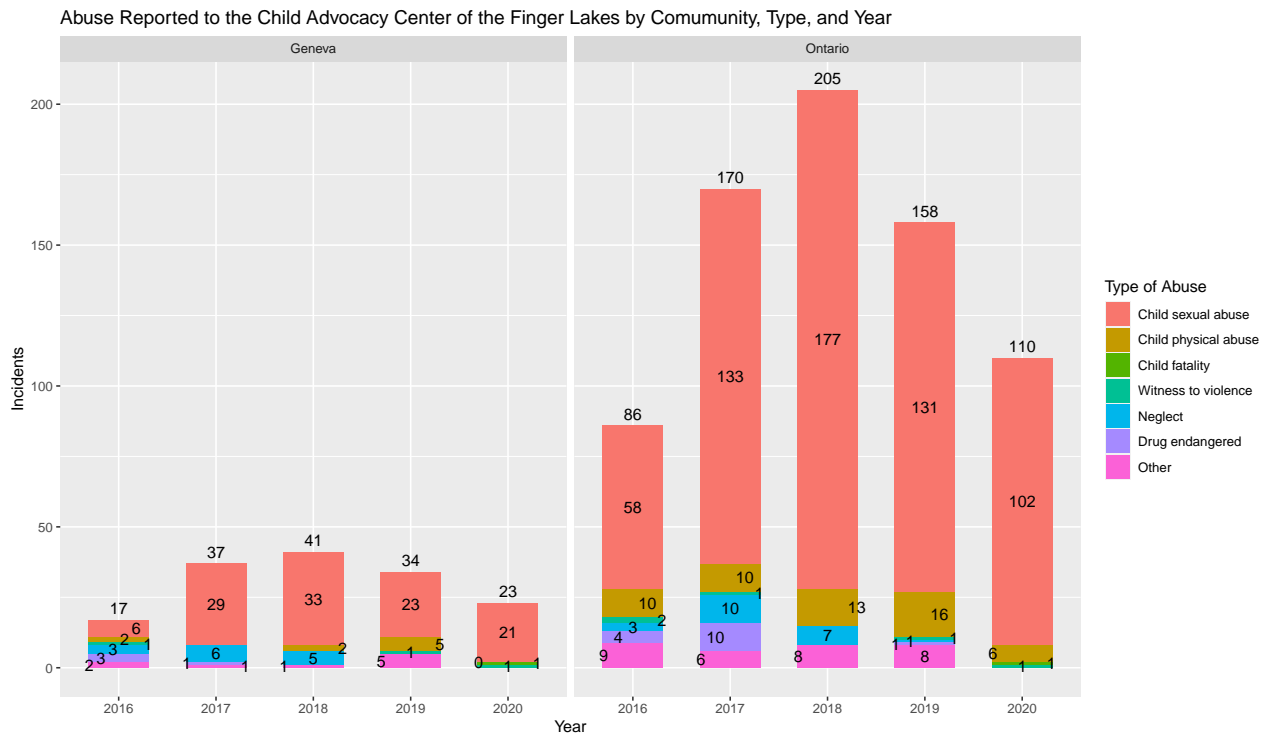

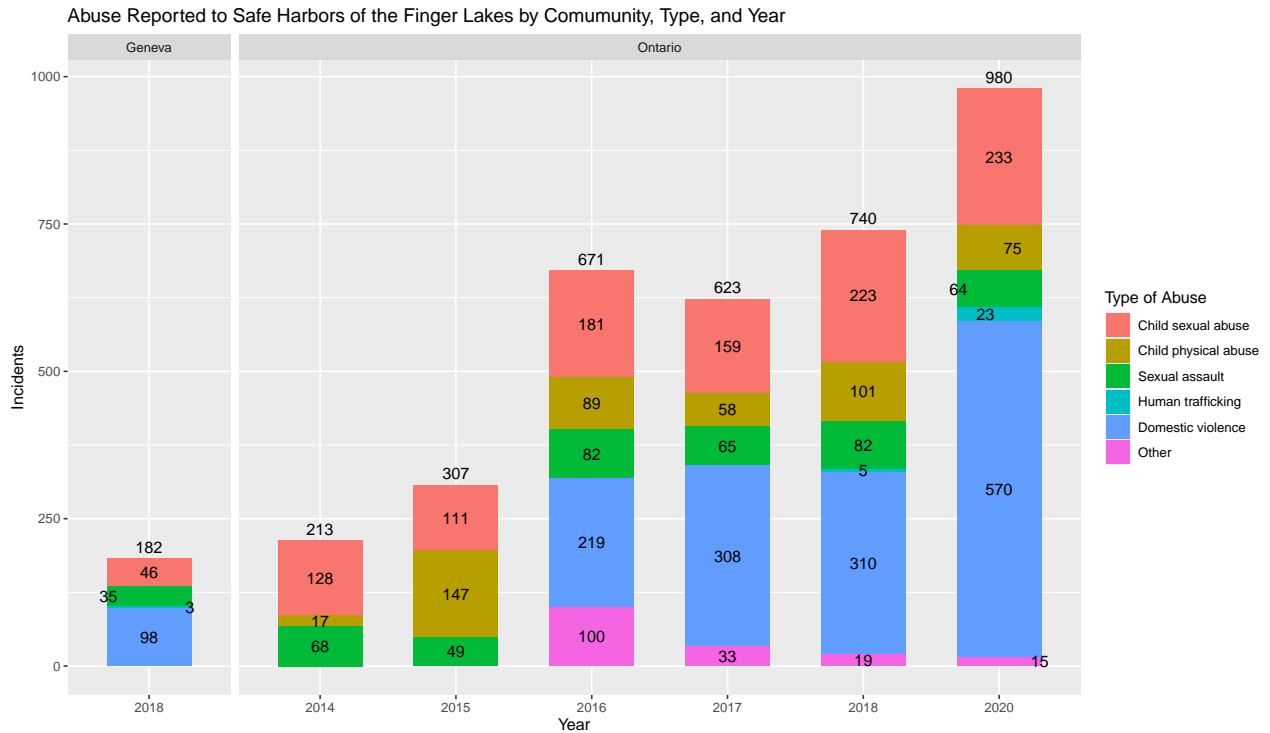

- In those Geneva families in which all children are under 6, both parents are present about 50% of the time. This compares to 70% or more in Ontario County and New York State.

- Source: [ACS Households and Families, 2019](#). Note: Data for earlier years may be obtained at this same link using the drop-down Product menu.

Reports of Abuse

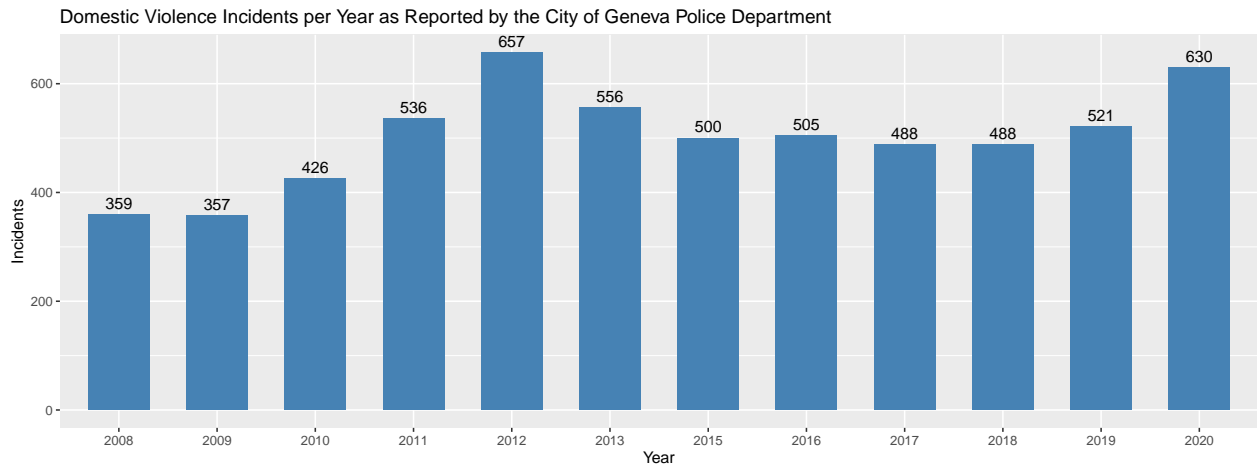

- Categories with just one incident are shown but not labeled within the corresponding bar.
- These data are not necessarily representative of the entirety of reported abuse in Geneva or Ontario County as there are other local agencies that individuals can call to report abuse.
- Source: Safe Harbors of the Finger Lakes and the Child Advocacy Center of the Finger Lakes.

City of Geneva Police Department Juvenile Referrals

- There has been a precipitous drop in arrests of minors. Since 2009, police have had the youthful offender and their parents work with the victim in minor crimes instead of having them get arrested or go automatically to probation, Person in Need of supervision (PINS) or family court. Police work with the parent to take charge of the follow through with the victim and the youth. If it is a more serious crime, then an arrest is made. While young people are still committing smaller offenses, police have worked hard not to have them enter the system and prefer to work with the parents and the youth.
- Source for 2015–2020 data: [City of Geneva Police Department Annual Reports](#).

Domestic Violence Incidents

- Source for 2013–2020 Data: [Geneva Police Department Annual Reports](#).
- Source for 2008–2012 Data: Geneva Police Department as reported in [Success for Geneva's Children 2014 Data Report](#).
- Data for 2014 is not available.

Goal 5: Families and caregivers possess and practice child-rearing skills that promote optimal child development

Teen Pregnancies

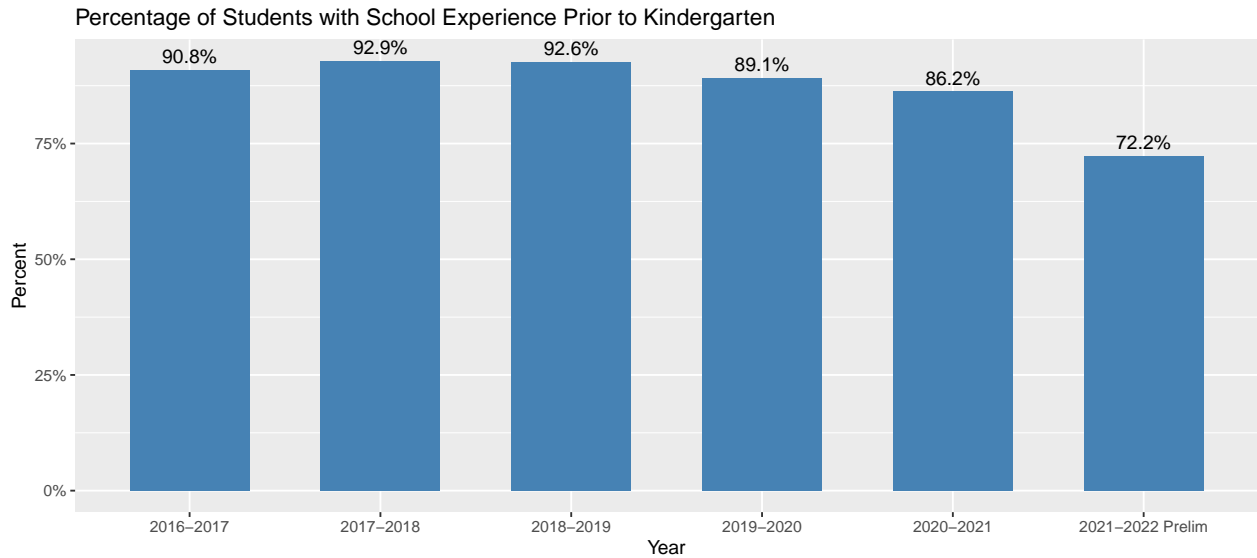

Note: **Teenage** is defined as ages 15 to 19. The **teen pregnancy rate** is defined as the number of teenage pregnancies per 1,000 females aged 15 to 19 in the population.

- The graph indicates that teen pregnancy rate (the number of pregnancies per 1,000 female teens) in Geneva has generally been lower than or roughly equal to the rate for the rest of Ontario County.
- Most significant in both Geneva and the county is the substantial drop in the teen pregnancy rate. It has dropped by more than 50% over the last decade.
- Nonetheless, because the population of Geneva is significantly younger than the rest of Ontario county (13.4% of females in Geneva are age 15 to 19, while only 5.2% are in the rest of the county), Geneva has a disproportionate number of the county's teen pregnancies. See the graph below.
- Thus, despite the lower teen pregnancy rate, Geneva still requires services for these young mothers.
- Sources: [Table 30: Total Pregnancies and Teenage Pregnancies by Type and Resident County New York State, 2019](#) and [Table 53: City and Village Profiles Selected Statistics for Cities and Villages Over 10,000 Population New York State, 2019](#). For population data: [United States Census Bureau, 2019](#).

School Experience Prior to Kindergarten

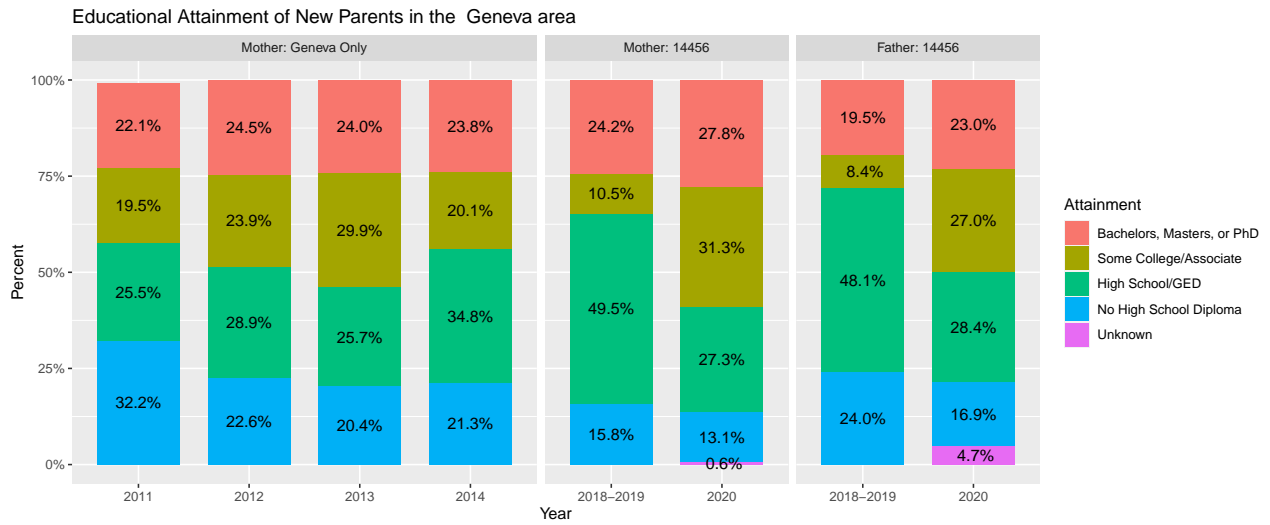

- The data represent the percentage of students enrolled in kindergarten in the Geneva Public School District with school experience prior to kindergarten.
- Data for 2020-2021 is unavailable due to COVID-19 pandemic.
- The dramatic effect of COVID-19 pandemic during 2021 on pre-K school experience can be seen in the 2021-2022 kindergarten enrollment data.
- Data Source: Registrar's Office, Geneva City School District.

Additional notes from the United States Census Bureau on Pre-School Enrollment.

- The percentage of kids ages 3 and 4 enrolled in school fell from 54% in 2019 to 40% in 2020, the first time since 1996 that fewer than half of the children in this age group were enrolled.
- Enrollment in nursery schools fell by 25% (from 4.7 million to 3.5 million), and in kindergarten by 9% (4.1 million to 3.7 million).
- The number of 3-4-year-old children of working mothers enrolled in nursery school declined by 35% from 2019 to 2020, compared with a 10% decrease of other enrolled 3-4 year-olds (the overall decrease was 26%).

Source: [Census Bureau Data Reveal Decline in School Enrollment.](#)

Educational Attainment of New Parents in Geneva

- For 2011–2014:
 - The data for are for Geneva and mothers of new children only.
 - Source: [Success for Geneva’s Children 2016 Data Report](#).
- For 2018–2019: the data represent the educational attainment of parents of children born to 190 new mothers and 154 new fathers living in the 14456 zip code during the period 9 May 2018 to 23 May 2019.
- Source: Ontario County Department of Health and Human Services (NYS Electronic Birth Certificate Registry).
- The 14456 zip code encompasses more than the City of Geneva.

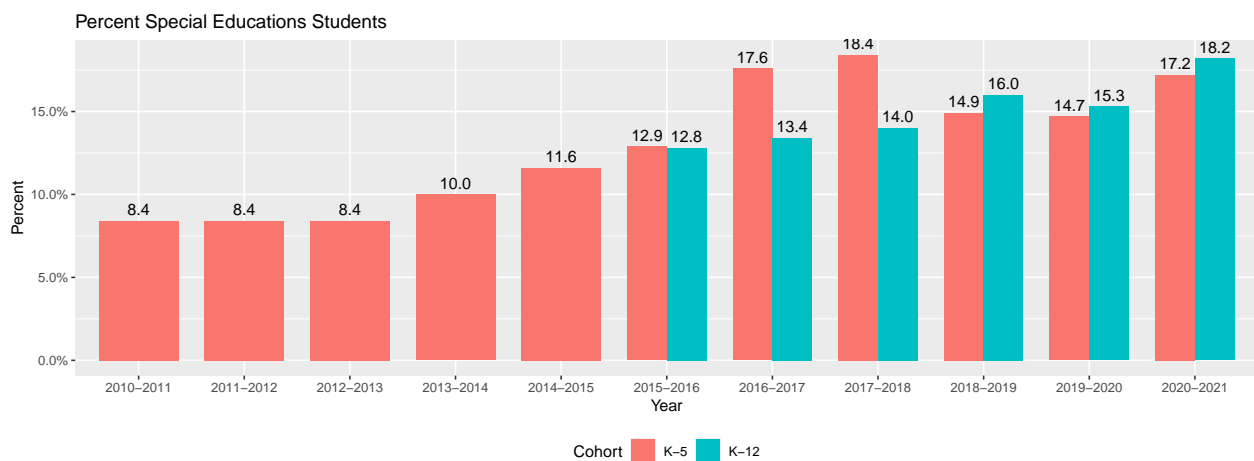

Goal 6: Children with special needs receive timely and appropriate services

Early Intervention for Preschoolers in Geneva

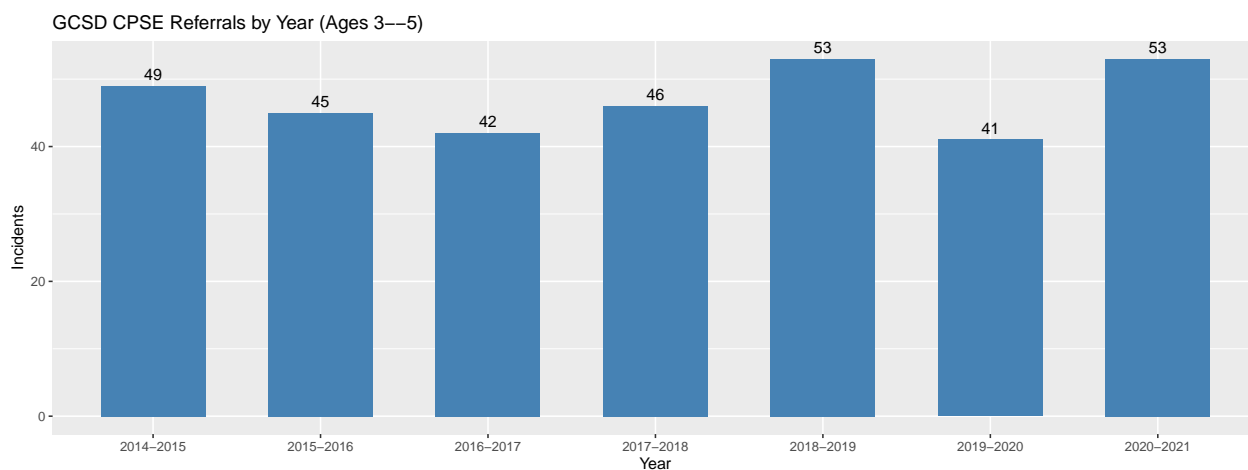

- Source of data for 2018–2021: Ontario County Department of Public Health.
- Source of data through 2011–2012: [Success for Geneva’s Children 2016 Data Report](#).
- The remaining data come from [Success for Geneva’s Children Data Books](#).

Special Education Services for Geneva’s Elementary School Students

- Source for data through 2014–2015 [Success for Geneva’s Children 2016 Data Report](#).
- Source for later data: Geneva City School District, Office of Student Services.

Committee for Preschool Special Education Referrals

- The Committee for Preschool Special Education (CPSE) is a committee of the Geneva City School District specifically assigned with making sure that children ages 3 to 5 are referred for an evaluation if it is suspected that the child has a disability. It may be a physical disability, speech and language issue, learning issue, autism, etc. Once evaluated if the child qualifies for services, Ontario County pays for whatever program or therapy is required (ages 3-5) but the school district is responsible for making sure the children receive the services.
- The Committee on Preschool Special Education:
 - Accepts referrals made by parents, physicians, preschool programs and other sources and forwards the referrals to an Evaluation Team.
 - Receives the recommendation of the Evaluation Team and approves the provision of appropriate services, such as speech therapy or physical therapy, when needed.
 - Reviews each child's progress on a regular basis. The Committee on Preschool Special Education at the School District works in conjunction with the Ontario County Public Health Office of Children with Special Needs in the provision of these services.
- Source: Geneva City School District, Office of Student Services.

Goal 7: Children have the opportunity to attend quality early childhood and care programs

Licensed Child Care Capacity in Geneva: Overview

Licensed Child Care Capacity in Geneva: A Closer look

- The total for each category appears at the top of the bar.
- Note: The total number of child care slots at Family Care and Group Family Care sites is contingent upon the ages of the children. The data above are the total of the absolute maximums possible for each age category at each such site. However, not all site maximums can occur at once for any Family Care and Group Family Care facility.
- Note: New York State classifies the age ranges for Infants and Toddlers differently depending on the type of day care facility.

Age	Day Care Center	Family & Group Family Care	School Age Care Center
Infant	6 weeks thru 17 months	6 weeks thru 23 months	NA
Toddler	18 thru 35 months	24 thru 35 months	NA
Pre-school	3 years thru 4 years	3 years thru 4 years	NA
School Age	5 years +	5 years +	5 years +

Snapshot: One Center's Recent History

- These data provide a snapshot in time (May 2019, March 2020, September 2021) of the capacity and waiting list at the Jim Dooley Center for Early Learning. There is a need for additional child care slots for all age groups.
- Source for the lower graph: Jim Dooley Center for Early Learning.

Goal 8: Children attend quality schools and succeed

Students by Race and Ethnicity: Shift in a Generation

- Groups with less than 1% in a given year are displayed in the graph, but not labeled.
- Note the dramatic change in twenty years.
- The *Finger Lakes Times* (9/27/2018, page 7A) reported that the Geneva school district "is ranked in the top three of the most diverse school districts in the state with more than half of the city's students classified as minorities. In particular, the district has had a 5 percent increase in Hispanic students, including a number of displaced students from Puerto Rico, which was hit hard by two hurricanes in 2017.
- Perhaps using different criteria, newyorkupstate.com reports that Niche.com rated the Geneva City School District as the sixth most diverse school district in Upstate New York for 2019. (See <https://expo.newyorkupstate.com/news/erry-2018/10/a46b0823d39496/diverse-school-district-upstat.html>) The Niche rating uses the U.S. Department of Education's Student Racial Diversity Index, Economically Disadvantaged Percent, and Gender Diversity Index, as well as Parent/Student survey data to rate schools. (See <https://www.niche.com/about/methodology/most-diverse-school-districts/>)
- Source: [NYSED Information and Reporting Services: Public School Enrollment](#).
- Data reported annually on Basic Educational Data System (BEDS) day each October. Data for the intervening years are available.

Changing Student Demographics in Two Generations

- In two generations, the school population has gone from 85% white to 58% students of color.
- By the 2019–2020 school year, the student population in the Geneva City Public Schools was more diverse than the population of school-age children (5–17) in the entire United States (compare the final few bars in the graph above).
- Source: [NYSED Information and Reporting Services: Public School Enrollment](#) and [The Annie E. Casey Foundation KIDS COUNT Data Center](#).

Geneva High School Graduation Rates

Table 4: Geneva High School 4-year Graduation Rates (as of August 31) by Cohort, and Year

Year	All	Multiracial	Black	White	Hispanic	SWD	ELL	SES
2021	94.7	100.0	100.0	97.3	84.8	83.3	50.0	93.0
2020	89.6	85.0	100.0	95.1	77.3	77.8	54.5	81.7
2019	82.7	83.3	88.9	91.5	62.0	58.8	26.3	74.1
2018	83.4	95.5	77.8	91.1	58.3	80.0	16.7	73.7
2017	81.2	77.8	76.2	91.4	63.2	53.3	57.1	73.4
2016	84.9	70.6	75.0	92.3	74.3	81.0	40.0	77.7

English Language Learners in the Geneva School District **Preliminary**

- The number of English Language Learners in Geneva City Schools in grades Pre-K through 12 is shown within each bar.
- Note: These data differ slightly from those reported in 2019; data now include Pre-K students from 2011-2012 (when it first became available) onward.
- Data are reported annually on Basic Educational Data System (BEDS) day each October.
- Data for 2020-2021 are preliminary.
- Source: [NYSED Information and Reporting Services: Public School Enrollment](#).

Economically Disadvantaged Students in the Geneva School District **Preliminary**

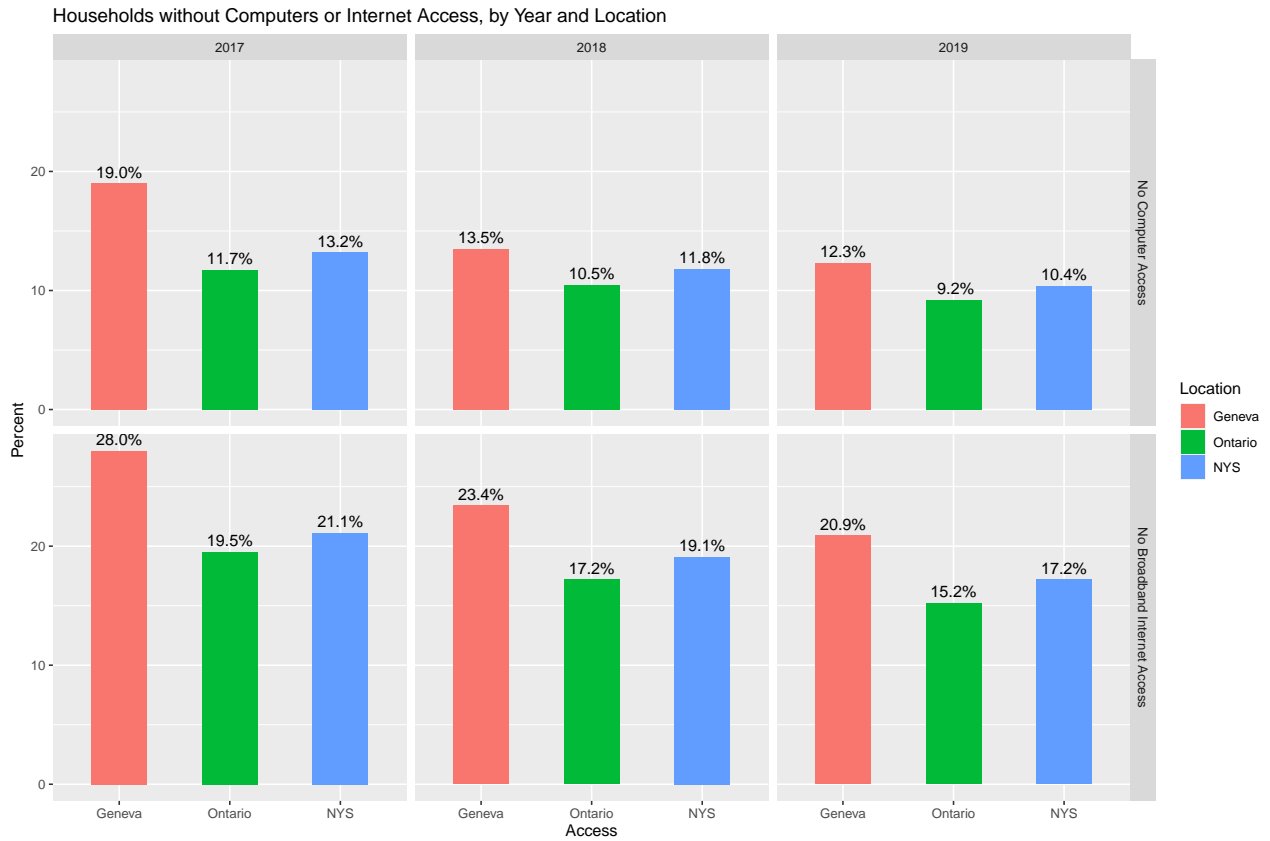

- The number of Economically Disadvantaged Students in Geneva City Schools in grades Pre-K through 12 is shown within each bar.
- Data are reported annually on Basic Educational Data System (BEDS) day each October.
- Data for 2020-2021 are preliminary.
- Source: [NYSED Information and Reporting Services: Public School Enrollment](#).

New York State Assessment, Grades 4 and 8 in the GCSD

- **Data are for the entire Geneva City School District.** The 2019–2020 assessments were cancelled because of the COVID-19 pandemic.
- **Caution!** In 2020–2021 the participation rates for Grade 4 were 78% (ELA) and 75.9% (Math) and for Grade 8 were 56.6% (ELA) and 38% and are not representative of the entire district. Additionally, at least for the 8th grade, since 2014 the data may not be a true reflection of students’ progress because large numbers of students did not take the exams. For example, in 2018 only 60% of 8th graders took the ELA exam and 49% took the Mathematics exam.
- Due to changes in the 2016 exams, the proficiency rates from exams prior to 2016 are not directly comparable to the 2016 proficiency rates.
- Because of the State’s new two-session test design and performance standards, the 2018 Grades 4 and 8 ELA and mathematics results cannot be compared with prior-year results, but are comparable with later years.
- In the 2009–2010 and 2012–2013 school years, the large decreases in achievement are largely attributable to a state-level change in what standard constituted a 3 or 4 on the exam.
- Sources: <https://data.nysed.gov/reportcard.php?instid=800000040585&year=2011&createreport=1&38ELA=1&38MATH=1> for 2011 and later years; <https://data.nysed.gov/files/reportcards/archive/2009-10/AOR-2010-430700010000.pdf> for 2010 and earlier years.

Households without Computers or Internet Access

- Lack of access to home computers and the internet is roughly 30% higher in Geneva than Ontario County.
- How has this affected education in the the Geneva School District during the COVID-19 pandemic?

Goal 10: Families exercise their voices and their votes in strengthening the Geneva community

May School Budget Voter Turnout in the Geneva City School District

- Voters eligible to vote in Geneva City School District reside in the City or Town of Geneva in Ontario County, in Benton in Yates County, and only the parts of Waterloo that are in the Geneva School District, in Seneca County.
- Data for 2014–2020 were calculated as follows. The voter turnout (upper value shown within each bar) was obtained from [NYSED: Satewide school District Budget Voting Results](#). The number of eligible voters (lower value within bar) was obtained from the Commissioners of the Ontario County Board of Elections and the percent voting (above the bar) was then calculated. Data for previous years obtained from [Success for Geneva’s Children 2016 Data Report](#).

May School Budget Voter Comparison of GCSD to NYS and FLX

• Source: [NYSED: Satewide school District Budget Voting Results.](#)

- The Geneva City School District is part of the Wayne-Finger Lakes BOCES District
- The Tax Cap was implemented between the 2011 and 2012 elections.
- Why was turnout so high in 2020? Because of the COVID-19 pandemic, each voter in New York State received a mail-in ballot making it easier to cast one's vote.
- Voter turnout in Geneva is 39% higher than it was in 2010 in contrast to New York State and the rest of the Wayne Finger Lakes District where it has fallen 33%.

Expanded Data Links

The list below gives the actual url for each online source used in this document. Both the link in blue and the associated url will take you to the relevant resource. Many of the U.S. Census (ACS) and New York State links can be easily modified to provide previous years' data by changing the occurrence of 2019 in the link to an earlier year.
